**Community means so many things to so many people and the world to us. In all we do, and all we say, we are all for community.**

**We bring donors to the table as community builders.**

We help them formulate and realize their philanthropic goals, matching their interests and concerns with community needs and organizations. We help them find innovative and responsible ways to give their investments lasting impact.

**We take the broadest view of what a community is and what it needs to succeed.** That's why

our grants support everything from shelter, sustenance and care for those most in need, to recreation, the arts, and the environment.

**We take the long-term view for our communities.** We

identify long-term needs and opportunities and invest in sustainable solutions, helping our communities become resilient, resourceful, and ready for the future they want.
